CSA SIGN-UP 2017

How it Works

One share ($400) entitles you to $460 worth of produce from January through December 2017. That is a 15% savings off of our regular market price. You can add to your account at any time throughout the season. Shareholders are given free choice from our available in-season vegetables, herbs, flowers, and pasture-raised meat. We will be at the Exeter and Rollinsford Markets in the winter. During warmer months, our self-service farm stand will be open, and we will be at Exeter Farmers' Market on Thursdays, and Saturdays we will be at Portsmouth Farmers' market. We encourage market members to arrive at market early to ensure greatest selection.

Becoming a member of our Community Supported Agriculture program is a sustainable way to help farmers with early season start-up costs, and secures a market for fresh produce. Members benefit by getting a discount on our products, and free choice as to what we have available. This amounts to less food waste, and more of the nutritious and beautiful foods that you enjoy. You can choose a time and location that works for you. If you need to skip a week or two, there's no need to call, but it might be worth sending a friend or neighbor to make sure you don't get behind. We will keep track of your balance and periodically notify you so you can plan accordingly. We ask you use up your total amount before the end of December 2017.

Farmers' Statement

As organic growers, our philosophy is that healthy soil and healthy people are necessary to grow healthy food. While we work hard to provide optimal growing conditions on our farm, natural factors such as weather and insects are beyond our control. There is no guarantee that any particular crop will thrive. We strive for biodiversity, cultivating a variety of plants and livestock, and using season extension practices so there is always enough to choose from. Let's grow good things together in 2017!
