

# Meadow's Mirth 2021 CSA

A foundational part of our business is our Community Supported Agriculture program. The CSA gives the farm needed income in the early part of the season to help with seed purchases, early startup costs, and ensures a viable market for our products. By investing in our farm our members show their commitment to small farms and food security in the Seacoast Region. In return, our members receive a discount on products purchased at the farm or at our farmers markets. We have restructured our CSA to best meet different needs of different households and reduce the bar to entry for folks to support local agriculture. We strongly believe that community is a key to our survival as a small farm, and we are committed to supporting that community doing what we do best—growing safe nutritious food!

## Meadow's Mirth Root Level Members

Root members are the foundational members of our CSA. For \$400 payment members receive \$440 in **credit in our store** and at farmers markets. Additionally, Root members receive special member pricing on products as marked in the store and at markets, which will include weekly special deep discounts.

## Meadow's Mirth Seed Level Members

Seed members are similar to the Root members but instead invest \$200 and receive \$210 in **credit**, as well as special member pricing in our store and at markets. This level is ideal for smaller households that still want to help us start up the farm.

## New Sprout Level Member!

This new membership level allows the greatest flexibility! For \$100 Sprout members receive one year of special member pricing in our store and at our farmers markets! Sprout members accrue more savings the more they shop with us. This is an ideal membership level for folks who perhaps have a garden, like to shop at different farm stores, or belong to another CSA.

## Farmers' Statement

As growers, our philosophy is that healthy soil and healthy people are necessary to grow healthy food. While we work hard to provide optimal growing conditions on our farm, natural factors such as weather and insects are beyond our control. There is no guarantee that any particular crop will thrive. We strive for biodiversity, cultivating a variety of plants and using season extension practices so there is always plenty to choose from.

**Let's grow great things together in 2021!**

- Josh & the crew at Meadow's Mirth Farm

**Yes, I would like to join!     CSA Root Level \$400     CSA Seed Level \$200     CSA Sprout Level \$100**
